

# SWISS AIR

**The Swiss Air PAPR is specifically engineered to provide unparalleled respiratory protection for stone fabricators, masons and contractors.**

- This high-performance PAPR (powered air-purifying respirator) system offers a robust shield against harmful dust, silica, and toxic fumes commonly encountered in stone fabrication.
- Protect your health from respiratory and lung disease with a positive-pressure air system that eliminates 99.8% of toxins and reduces fatigue.
- The most versatile PAPR on the market, comfortable and lightweight, thanks to the award-winning ergonomic backpack design.
- Save money with a reusable, washable, half-mask system that eliminates the recurring cost of paper masks.
- Enjoy the security of having a consistent air supply and a 14-hour high-performance battery.

**The optrel Swiss Air is perfect for workers in a variety of industries including:**

**COUNTERTOP FABRICATORS | MARBLE STONE MASONS | TILE CONTRACTORS | CONCRETE POLISHING | GRANITE FABRICATORS | CONCRETE CONTRACTORS**
